1. NATURE OF OPERATIONS AND GOING CONCERN

Tintina Resources Inc. (the "Company") was incorporated (TSX.V TAU.V) on July 30, 1998 under the laws of British Columbia and is a mining exploration and development company. The address of the Company's corporate office is Suite 1110, 1111 West Georgia Street, Vancouver, British Columbia, V6E 4M3, Canada.

The Company is in the process of exploring its resource property and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for resource properties and related exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

Management has determined that the Company will be able to continue as a going concern for a reasonable period of time and realize its assets and discharge its liabilities and commitments in the normal course of business, and therefore, these financial statements are prepared on a going concern basis and do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These interim condensed consolidated financial statements are unaudited and have been prepared in compliance with International Financial Reporting Standards ("IFRS"), including IAS 34 - Interim Financial Reporting ("IAS 34"). For these purposes, IFRS comprise the standards issued by the International Accounting Standards Board ("IASB") and Interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These interim condensed consolidated financial statements do not contain all of the information required for full annual financial statements and should be read in conjunction with the Company's consolidated financial statements for the year ended September 30, 2015.

b) Basis of preparation

Subsidiaries

These interim condensed financial statements include the accounts of the Company and its wholly owned US subsidiaries. All intercompany balances and transactions have been eliminated on consolidation. The Company consolidates subsidiaries where it has the ability to exercise control. Control of an investee is defined to exist when the investor is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Particularly, the Company controls investees, if and only if, the Company has all of the following: power over the investee; exposure, or rights to variable returns from its involvement with the investee; and the ability to use its power over the investee to affect its returns.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

c) New and amended accounting standards

The Company is not aware of any changes to IFRS and IFRIC effective October 1, 2015 that impact the Company's financial statements.

d) New standards and interpretations not yet effective

Standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

New accounting standards effective for annual periods on or after October 1, 2016:

IAS 1 – *Presentation of Financial Statements*

In December 2014, amendments to IAS 1 were issued to address perceived impediments to preparers exercising their judgement in presenting their financial statements. The amendments clarify the definition of materiality, the presentation of items on the statement of financial position and statement of profit or loss and other comprehensive income, and ordering of notes in the financial statements.

IFRS 10 – *Consolidated Financial Statements*

In September 2014, amendments to IFRS 10 were issued to provide guidance on recognising gains and losses from the loss in control of a subsidiary in the parent's profit or loss. In December 2014, further amendments to IFRS 10 were issued to address issues that have arisen in the context of applying the consolidation exception for investment entities.

IFRS 11 – *Joint Arrangements*

In May 2014, an amendment to IFRS 11 was issued addressing guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business. The amendment now specifies the appropriate accounting treatment for such acquisitions and requires applying the principles in IFRS 3 – *Business Combinations,* when acquiring an interest in a joint operation that constitutes a business.

New accounting standard effective for annual periods on or after October 1, 2017:

IAS 12 – *Income Taxes*

In January 2016, amendments to IAS 12 were issued to clarify the recognition of deferred tax assets for unrealized losses. The amendments address aspects related to the deductible temporary differences, future taxable profits, and deferred tax asset.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

d) New standards and interpretations not yet effective (continued)

New accounting standards effective for annual periods on or after October 1, 2018:

IFRS 9 – *Financial Instruments*

In November 2009, as part of the IASB project to replace IAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments, that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013, new general hedging requirements were added to the standard. In July 2014, the final version of IFRS 9 was issued and adds a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics.

IFRS 15 – *Revenue from Contracts with Customers*

In May 2014, IFRS 15 was issued and replaces IAS 11 – *Construction Contracts*, IAS 18 – *Revenue*, IFRIC 13 – *Customer Loyalty Programmes*, IFRIC 15 – *Agreements for the Construction of Real Estate*, IFRIC 18 – *Transfers of Assets from Customers* and SIC-31 – *Revenue – Barter Transactions Involving Advertising Services.* IFRS 15 establishes a single five –step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer.

New accounting standard effective for annual periods on or after October 1, 2019:

IFRS 16 – *Leases*

In January 2016, IFRS 16 was issued, specifying how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.

The Company is currently still assessing the impact of the new standards. Therefore, the extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.

Black Butte Copper

i) Black Butte Copper 2010 Leases

On May 2, 2010, the Company, through its wholly-owned subsidiary, Tintina Montana Inc. ("TMI"), entered into mining lease agreements and a surface use agreement (collectively, the "Black Butte Agreements") with the owners of the Black Butte copper-cobalt-silver property in central Montana, United States. This portion of the Black Butte property consists of approximately 7,684 acres of fee-simple lands and 4,541 acres in 239 Federal unpatented lode mining claims in central Montana.

The Black Butte Agreements provide the Company, through TMI, with exclusive use and occupancy of any part of the property that is necessary for exploration and mining activities for an initial term of 30 years, which can be extended by the Company for additional periods of 10 years by giving prior notice within the time specified in the agreements. The Black Butte Agreements also provide for surface lease payments and advance minimum royalty payments to be paid to the lessors, in total of US$12,200,000 in cash (schedule Payments 1), and a Net Smelter Returns ("NSR") royalty of 5% after commencement of commercial production, if any. At any time after completion of a feasibility study, the Company has the right to buydown the maximum 5% NSR to 2% by making payments to the lessors in total of US$10,000,000.

On December 19, 2014, the Company, through TMI, entered into a mining lease agreement with one of the lessors of the Black Butte Copper property to supplant in part and continue in part the Black Butte Agreements. An annual surface rent payment of US$10,000 in cash is payable to the lessor on or before May 2, 2015 to May 2, 2040.

The following is an updated schedule of payments, translated to Canadian dollars, as at December 31, 2015:

Payments 1

$	1,525,280	Total paid from May 2, 2010 to May 2, 2015
	15,211,150	$608,446 annually on May 2 from 2016 to 2040
$	16,736,430	Total lease payments, excluding buydown of NSR royalty of 5%

(Unaudited - Expressed in Canadian Dollars)

4. RESOURCE PROPERTIES (continued)

ii) Black Butte Copper 2011 Leases

During the year ended September 30, 2011, the Company, through TMI, staked additional claims on federal lands and entered into mining lease agreements.

The additional mining lease agreements were entered under similar terms as the Black Butte Agreements as described above. The Company was granted the sole and exclusive use and occupancy of any part of the property that is necessary for exploration and mining activities for an initial term of 30 years, which can be extended by the Company for additional periods of 10 years by giving prior notice within the time specified in the agreements. The additional Black Butte Agreements provide for prior to commercial production, advance minimum royalty payments to be paid to the lessors, in total of US$1,250,000 in cash (schedule Payments 2), and a NSR royalty of 5% after commencement of commercial production, if any. At any time after completion of a feasibility study, the Company has the right to buydown the maximum 5% NSR to 2% by making payments to the lessors in total of US$5,000,000.

The following is an updated schedule of payments, translated to Canadian dollars, as at December 31, 2015:

$	1,696,837	Total lease payments, excluding buydown of NSR royalty of 5%

iii) Lease and Water Use Agreement

On October 15, 2015, the Company entered into a Lease and Water Use Agreement to lease the water rights to certain locations in Meagher County, Montana. The Company shall pay the owner the sum of US$20,000 per year for 30 years, in total of US$600,000 in cash (schedule Payments 3). Upon actual mining and production of minerals at the Black Butte Copper property, the annual payment shall be increased to US $100,000.

The following is an updated schedule of payments, translated to Canadian dollars, as at December 31, 2015:

Payments 3

7. STOCK OPTION PLAN AND SHARE-BASED PAYMENTS

The Company adopted a rolling stock option plan (the "Plan") to grant options to directors, senior officers, employees, independent contractors and consultants of the Company. The Plan reserves for issuance up to 10% of the issued and outstanding share capital of the Company from time to time, and provides that it is solely within the discretion of the Board or, if the Board so elects, by a committee consisting of not less than two of its members appointed by the Board, to determine who should receive options and in what amounts. Options granted under the Plan are for a term not to exceed 10 years from the date of their grant and are exercisable at a price not less than the discounted market price (which is the market price less a discount of 25% for a closing price of up to $0.50, a discount of 20% for a closing price of $0.51 to $2.00, and a discount of 15% for a closing price above $2.00, subject to a minimum of $0.10).

On December 15, 2014, the Company granted to directors, officers, and employees a total of 2,760,000 stock options under the Company's Stock Option Plan. The options have a five year term and are exercisable at a price of $0.15 per share, and vest 1/3 one year after date of grant, 1/3 two years after date of grant and the remaining 1/3 three years after date of grant. The Company's closing share price on December 15, 2014 was $0.095.

10. COMMITMENTS

a) In August 2015, the Company entered into a sublease agreement for office premises at a rate of $1,400 per month for a six-month term expiring on February 29, 2016. As at December 31, 2015, future payments committed are $2,800.

b) In October 2015, the Company also entered into a Lease and Water Use Agreement to pay US$20,000 per year for 30 years. Upon actual mining and production of minerals at the Black Butte Copper property, the annual payment shall be increased to US$100,000. The Company has commitments to incur exploration and evaluation costs as disclosed in Note 4.

11. FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy has three levels to classify the inputs to valuation techniques used to measure fair value.

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;
Level 2 - other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
Level 3 inputs are for the asset or liabilities that are not based on observable market data (unobservable inputs).

As at December 31, 2015, the carrying value of cash and cash equivalents, amounts receivable and accounts payable approximates their fair value due to their short terms to maturity. The Company's financial assets and liabilities are classified as Level 1.

Liquidity Risk

The Company manages liquidity risk by maintaining an adequate cash balance. The Company continuously monitors and reviews both actual and forecasted cash flows, and also matches the maturity profile of financial assets and liabilities.

Interest Rate Risk

The Company's cash and cash equivalents are subject to interest rate price risk. The Company's interest rate risk management policy is to purchase highly liquid investments with a term to maturity of one year or less on the date of purchase. The Company does not engage in any hedging activity. The Company earned $4,390 in interest income during the three months ended December 31, 2015.

Credit Risk

The Company maintains substantially all of its cash with major financial institutions. Deposits held with these institutions may exceed the amount of insurance provided on such deposits.

Commodity Price Risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities.

11. FINANCIAL INSTRUMENTS (continued)

Foreign Currency Risk

As the Company operates on an international basis, currency risk exposures arise from transactions and balances denominated in foreign currencies. The Company's foreign exchange risk arises primarily with respect to the U.S. dollar. A significant portion of the Company's cash and cash equivalents, accounts payable, and expenses are denominated in U.S. dollars. Fluctuations in the exchange rates between these currencies and the Canadian dollar could have a material effect on the Company's business, financial condition and results of operations. The Company does not engage in any hedging activity.

There have been no changes in the Company's objectives and policies for managing the above mentioned risks and there has been no significant change in the Company's exposure to each risk during the three months ended December 31, 2015.

The Company is exposed to currency risk through following assets and liabilities denominated in U.S. dollars:

	December 31, 2015	September 30, 2015
Cash and cash equivalent	$ 3,279,047	$ 4,854,147
Accounts payable and accrued liabilities	(292,733)	(721,896)
Total	$ 2,986,314	$ 4,132,251

Based on the above net exposure as at December 31, 2015, a 10% change in U.S. dollar against Canadian dollar would result in a $0.3 million (September 30, 2015 - $0.4 million) decrease or increase in the Company's net earnings.

12. SUBSEQUENT EVENT

On January 29, 2016, the Company filed Notice of Change of Financial Year-end on SEDAR to provide notice that it intends to change its financial year end from September 30 to June 30 to coincide the Company's annual reporting as a public company with its majority corporate shareholder.

The length and ending date of the periods, including the comparative periods, of each interim financial report and the annual financial statements to be filed for the Company's transition year and its new financial year are as follows, as are the filing deadlines, for the annual financial statements and interim financial reports for the Company's transition year.
